

official SFC mask
DR. KHAN

PROTIP #1

Use thicker paper

PROTIP #2

Use an X-acto knife
for precision cuts.

**Parents please supervise
younger children*

1. Print Out. You'll look awfully silly bringing a laptop or ipad to hold up to your face.
2. Cut along dotted line to instantly become **DR. KHAN** for an evening!
3. Cut out sunglasses so you can see who you're grinding on.
4. Eat your favorite popsicle and tape or glue the stick to the back. Or hole punch the sides and use a string or something... We dunno, you figure this shit out!
